CODICE FISCALE: 03059620371
P.IVA (WAT NR.): IT00592551204
CCIAA 261451 MEC.M 137105

11520

- **Gear hobber GLEASON PHOENIX 175HC**
- **CNC FANUC 150M**

Maximum gear external diameter
(helix bevel gear/face milling
method) : approximately 216 mm

The diameter of the gear in the Ultimate transmission ratio: 10:1

face gear cutting mode is
approximately 190 mm

Root taper angle range: -5° to 90° gear pitch circle diameter:
190.5mm

The maximum speed of the Tool spindle is 800 RPM The maximum speed of the workpiece spindle is 750 RPM

The diameter of the large end taper (#39 taper) :
approximately 98.44mm Taper (per foot) : 39/64

taper depth: 76.2mm

Maximum gear external diameter
(helix bevel gear/face milling
method) : approximately 216 mm

The diameter of the gear in the Ultimate transmission ratio: 10:1
face gear cutting mode is
approximately 190 mm
